

NEW NUMBER ANNOUNCEMENT

June 2023

New Steel Piston for Caterpillar® C7 Engines

FP Diesel® is pleased to announce expanded coverage for select Caterpillar C7 engines.

Our new FP-2382720 steel piston is a POWERFORGED® friction-welded design. The large oil gallery maximizes cooling by allowing a greater volume of oil to reach more of the piston's interior surfaces. The friction-welded design results in a box structure that significantly reduces piston deformity and increases support to the ring lands.

The FP-2382720 steel piston complements our expansive range of C7 engine components.

Please contact Customer Service at the number below for more information.

Part Number	Description	Comments
FP-2382720	Piston, One-Piece Steel	ESNs C7C1-UP; K5K1000-UP; KGG2101-UP; KHX1-UP; MNB1-UP; TX71-UP
FP-PK2382720	Piston Kit w/Pin, Rings & Retainers	Contains FP-2382720 Piston
FP-RS0029	Ring Set, Single Cylinder	Contains 1979353, 1979386, 2382706
FP-1077604	Repair Sleeve	
FP-2W0027	Small End Bushing	
FP-2246638	Connecting Rod Bearing Pair- STD	
FP-7C6976	Connecting Rod Bearing Pair - 0.25MM	
FP-7C6977	Connecting Rod Bearing Pair - 0.50MM	
FP-2W7213	Cam Bearing	Positions 1 – 6
FP-2165586	Cam Bearing	
FP-1969519	Main Bearing Set - STD	6 Main Bearings, 1 Main Flanged Bearing
FP-1334995	Cylinder Head Gasket	
FP-2646157	Valve Seat - Intake	
FP-1478218	Valve Seat - Exhaust	
FP-1457390	Valve - Intake	
FP-2527801	Valve - Intake	
FP-1478211	Valve - Exhaust	
FP-1406188	Valve Spring - Intake	
FP-1376718	Valve Spring - Exhaust	
FP-1409670	Valve Guide – Intake	
FP-1478220	Valve Guide – Exhaust
